

Question 1

In order for center time to be implemented well, it must be organized with which of the following:

- A) modeling center activities before implementation
- B) setting clear management routines
- C) ensuring that all centers focus on productive literacy work
- D) all of the above

Answer: <https://biology-forums.com/index.php?topic=419899>

Question 2

Which of the following is an example of an authentic assessment?

- A) One example is when a teacher observes a student oral reading. This would be considered an authentic assessment if it reflects the actual teaching and learning in the classroom.
- B) One example is when a teacher interviews students about the reading strategies they use while reading. This would be considered an authentic assessment if the interview questions matched the carefully constructed curriculum map.
- C) One example is when a teacher administers a standardized test. This would be considered an authentic assessment if the district carefully selected a test that matched the actual standards.
- D) One example is when a teacher holds a writing conference with students. This is considered an authentic assessment because she can ask questions that seem real to the students.

Question 3

What is the role of assessment in early literacy instruction?

Answer: <https://biology-forums.com/index.php?topic=419801>

Question 4

Of the following, which one describes a component of an effective family literacy program?

- A) Programs build on the positive literacy experiences already happening in homes.
- B) Programs provide materials and ideas to parents and family members.
- C) Programs are built on respect and understanding of diversity.
- D) All of the above

Answer: <https://biology-forums.com/index.php?topic=419918>

Question 5

Describe a literacy-rich physical environment.

Answer: <https://biology-forums.com/index.php?topic=419906>

Question 6

Which types of assessments are prepared by publishers and are administered to large numbers of students in order to develop norms, validity and reliability?

- A) checklists
- B) daily performance samples
- C) teacher prepared pencil-and-paper tests
- D) standardized tests

Answer: <https://biology-forums.com/index.php?topic=419795>

Question 7

Besides phonics, explain other ways that children can figure out words.

Answer: <https://biology-forums.com/index.php?topic=419846>

Question 8

Which term describes when students browse through a book before reading it by looking at the pictures, discussing them, and making predictions?

- A) retelling
- B) book walk
- C) guess and check
- D) guided practice

Answer: <https://biology-forums.com/index.php?topic=419854>

Question 9

You teach preschool and you just returned from a nature walk with your students. As you walked, you pointed out a nest where a mother bird was feeding her babies. When you return to the classroom, your students are chatting excitedly about what they saw. What is the best way to use this experience to develop your students' writing skills?

- A) Write the words bird, nest, and worm on the board. Have students copy those words in their writing journals to use for later sentence writing.
- B) Ask the parents to help their child write a sentence about the experience for homework. Have them share the sentences with the class the next day and tell what they learned about writing.
- C) At the writing center, have students practice writing the words bird, nest, and worm on specially-lined handwriting paper. That way they can show their parent that they can actually read words that they write.
- D) In their journals, have students draw pictures and write about what they saw. As you talk with each student, provide written labels for each of their pictures.

Question 10

What philosophy of literacy instruction includes the use of children's literature to teach reading and writing in the context of meaningful, functional, and cooperative experiences where students' motivation and interest in the process of learning is important?

- A) reading readiness
- B) Montessori's philosophy
- C) behaviorism
- D) whole language

Answer: <https://biology-forums.com/index.php?topic=419782>

Question 11

Which statement best describes the relationship between language development and reading?

- A) Formal reading instruction begins much later in the kindergarten year. Thus, language development is not as important as it was once thought to be.
- B) Reading is thought of as using one's own language ability to understand the author's message. Thus, language learning is an important part of learning to read.
- C) Reading is thought of as using one's own language ability to understand the author's message. Thus, language must be fully developed before children can begin reading instruction.
- D) Reading is thought of as figuring out how to read the words in print. Thus, students who do not develop language skills must practice phonetic analysis of words in order to learn how to read.
