

Question 1

Sixth grade teacher Kate Brenna finds that the struggling readers in her class don't understand the ways in which more capable readers apply reading strategies. The principal wisely advised that the best way to help the students become more thoughtful, strategic readers would be for the teacher to:

- A) use a think-aloud to demonstrate the thought processes that more capable readers use
- B) talk with parents to explain the importance of skills based instruction
- C) encourage her students to read to first grade students
- D) invite guest readers to visit the classroom

Answer: <https://biology-forums.com/index.php?topic=449662>

Question 2

Young children are surrounded by words. Print such as logos on cereal boxes and signs for a favorite toy store or restaurant is known as:

- A) environmental print
- B) predictable print
- C) decodable print
- D) concept print

Answer: <https://biology-forums.com/index.php?topic=449712>

Question 3

Effective teachers have found that students read textbooks more successfully when they:

- A) have a purpose for reading
- B) read pages orally
- C) are given homework assignments
- D) use accompanying workbooks

Answer: <https://biology-forums.com/index.php?topic=450143>

Question 4

When a parent asked why the teacher conducted daily read alouds in a fourth grade classroom, the principal responded that reading aloud is beneficial for students of all ages. What are the benefits of reading aloud to older students?

Answer: <https://biology-forums.com/index.php?topic=449679>

Question 5

During shared reading, children should:

- A) be reminded to remain silent as the teacher reads
- B) listen to the teacher read and not be distracted by the text
- C) be invited to join in the reading of predictable refrains and rhyming words
- D) read books at their independent level

Answer: <https://biology-forums.com/index.php?topic=449670>

Question 6

It is most appropriate for students to seek and receive feedback on their writing during the:

- A) drafting stage
- B) prewriting stage
- C) publishing stage
- D) revising stage

Answer: <https://biology-forums.com/index.php?topic=449665>

Question 7

Educators who believe that learning is the result of stimulus and response actions subscribe to a theory known as:

- A) Inquiry Learning
- B) Reader Response
- C) Behaviorism
- D) Constructivism

Answer: <https://biology-forums.com/index.php?topic=449622>

Question 8
