Question 1

If an intended benefit of an IT project is improved decision making, managers should develop a set of metrics to quantify the value of an improved decision.
[b][True or False][/b]
Answer: https://biology-forums.com/index.php?topic=1860953

Question 2

Which of the following occurs as a firm moves from local option systems to regional and global systems?
A) Agency costs increase.
B) Coordination costs decrease.
C) Transaction costs increase.
D) Both transaction and agency costs increase.
E) All costs increase.
Answer: https://biology-forums.com/index.php?topic=1861002

Question 3

Removing the business process layers in a distribution channel is called:
A) disintermediation.
B) BPR.
C) market segmentation.
D) network effects.
E) market transparency.
Answer: https://biology-forums.com/index.php?topic=1860843

Question 4

Traditional online marketing, such as display ads, still constitutes the majority of all online marketing.
[b][True or False][/b]
Answer: https://biology-forums.com/index.php?topic=1860846

Question 5

Data cleansing not only corrects errors but also:
A) establishes logical relationships between data.
B) structures data.
C) normalizes data.
D) removes duplicate data.
E) enforces consistency among different sets of data.
Answer: https://biology-forums.com/index.php?topic=1860789

Question 6

All of the following are specific security challenges that threaten the communications lines in a client/server environment except:
A) errors.
B) tapping.
C) theft and fraud.
D) radiation.
E) sniffing.
Answer: https://biology-forums.com/index.php?topic=1860813

Question 7

All of the following have contributed to an increase in software flaws except:
A) the growing complexity of software programs.
B) the growing size of software programs.
C) demands for timely delivery to markets.
D) the inability to fully test programs.
E) the increase in malicious intruders seeking system access.
Answer: https://biology-forums.com/index.php?topic=1860819

Question 8

_____ are computers consisting of a circuit board with processors, memory, and network connections that are stored in racks.

A) Mainframes
B) Rack servers
C) Cloud servers
D) Hybrid servers
E) Blade servers

Answer: https://biology-forums.com/index.php?topic=1860748

Question 9

Computer networks are fundamentally different from telephone networks.
[b][True or False][/b]

Answer: https://biology-forums.com/index.php?topic=1860798

Question 10

In the direct cutover conversion strategy, the new system:

A) is tested by an outsourced company.
B) replaces the old one at on an appointed day.
C) and the old are run together.
D) is introduced in stages.
E) the old and new systems are run in parallel.

Answer: https://biology-forums.com/index.php?topic=1860922

Question 11

The interaction between information technology and organizations is influenced:

A) solely by the decision making of middle and senior managers.
B) by the development of new information technologies.
C) by many factors, including structure, politics, culture, and environment.
D) by two main macroeconomic forces: capital and labor.
E) by the rate of growth of the organization.

Answer: https://biology-forums.com/index.php?topic=1860691

Question 12

VR systems:

A) provide engineers, designers, and factory managers with precise control over industrial design and manufacturing.
B) automate the creation and revision of designs.
C) use machines to make solid objects.
D) provide architects, engineers, and medical workers with precise, photorealistic simulations of objects.
E) enable acquiring, storing, and disseminating knowledge documents in a virtual world.

Answer: https://biology-forums.com/index.php?topic=1860877

Question 13

Which of the following stores descriptions of past experiences of human specialists in a database for later retrieval when the user encounters a situation with similar characteristics?

A) CBR
B) Fuzzy logic
C) Data mining
D) LMS
E) Expert systems

Answer: https://biology-forums.com/index.php?topic=1860886

Question 14

Expert systems are expensive and time consuming to maintain because:

A) their rule base is so complex.
B) they rely on equipment that becomes outdated.
C) their rules must be reprogrammed every time there is a change in the environment, which in turn may change the applicable rules.

D) only the person who created the system knows exactly how it works, and may not be available when changes are needed.
E) it is difficult to program at this level of complexity without introducing software bugs.
Answer: https://biology-forums.com/index.php?topic=1860885

Question 15

Success as a change agent depends on legitimacy, authority, and ability to involve users in the change design process.
[b][True or False][/b]
Answer: https://biology-forums.com/index.php?topic=1861004

Question 16

Native apps are cheap to develop and only one version is required for different mobile operating systems.
[b][True or False][/b]
Answer: https://biology-forums.com/index.php?topic=1860935

Question 17

Virtually all expert systems deal with problems of:
A) policy development.
B) classification.
C) logic and control.
D) high complexity.
E) imprecise rules.
Answer: https://biology-forums.com/index.php?topic=1860884

Question 18

The dimension of _____ describes whether data elements are consistently defined.
A) completeness
B) accuracy
C) validity
D) consistency
E) integrity
Answer: https://biology-forums.com/index.php?topic=1860902

Question 19

Have mainframes disappeared?
Answer: https://biology-forums.com/index.php?topic=1860747

Question 20

You are advising the owner of ABC Computers, a small local computer shop that repairs and also builds custom computers to order. What competitive strategies could ABC Computers employ? Which ones may it have difficulty executing?
Answer: https://biology-forums.com/index.php?topic=1860712
