1. Does anyone in the group have previous knowledge of the researcher?
2. What is the scientific merit of the information?
3. Is the study original research?
4. How easy will it be to implement the changes?

Answer: <https://biology-forums.com/index.php?topic=574797>

Question 3

Which are modifiable risk factors?

1. Obesity, blood pressure, smoking, and sedentary lifestyle
2. Gender, smoking, blood pressure
3. Diabetes, obesity, age
4. Smoking, diet, genetics

Answer: <https://biology-forums.com/index.php?topic=575062>

Question 4

To what does the moral principle of beneficence refer?

1. Truth telling
2. Duty to do no harm
3. Faithfulness
4. Doing good

Answer: <https://biology-forums.com/index.php?topic=574621>

Question 5

What would be included in the assessment of the safety and transportation subsystem of a community? (Select all that apply.)

1. The types of public transportation
2. The number of local published newspapers
3. Modes of transportation
4. Air and water quality monitoring
5. Number of schools in the area

Answer: <https://biology-forums.com/index.php?topic=575004>

Question 6

The nurse is researching information on disease prevalence in Brazil and Canada. Which organization should the nurse contact for specific information about these countries?

1. AFRO
2. EURO
3. PAHO
4. EMRO

Answer: <https://biology-forums.com/index.php?topic=575039>

Question 7

A group of community members are diagnosed with a chronic illness affecting the same body system. What should the nurse consider as social determinants of health that contributed to the development of the disease process in these individuals? (Select all that apply.)

1. Age

2. Housing
3. Gender at birth
4. Community violence
5. Office location of employment

Answer: <https://biology-forums.com/index.php?topic=575019>

Question 8

The nurse working in the computer information department is planning to introduce the FITT concept to the nursing staff in anticipation of upgrading the clinical documentation system. In which order should the nurse provide this information?

1. Fit
2. Task
3. Individuals
4. Technology

Answer: <https://biology-forums.com/index.php?topic=574964>
