Question 4

The absence of normal menstruation is called _____.

- A) Endometriosis
- B) Amenorrhea
- C) Dysfunctional uterine bleeding
- D) Dysmenorrhea

Answer: <https://biology-forums.com/index.php?topic=610354>

Question 5

Forensic scientists interested in detecting poison in corpses can use which of the following?

- A) Changes in fingerprints
- B) The concentration of the poison in the body over a period of time
- C) Splitting DNA molecules
- D) Changes in lung structure

Answer: <https://biology-forums.com/index.php?topic=610547>

Question 6

Which term is used to designate muscle pain?

- A) Paralysis
- B) Spasm
- C) Myalgia
- D) Ataxia

Answer: <https://biology-forums.com/index.php?topic=610190>

Question 7

Blood is a connective tissue.

- T/F? A) True
B) False

Answer: <https://biology-forums.com/index.php?topic=610023>

Question 8

The most dangerous type of skin cancer is basal cell carcinoma.

- T/F? A) True

B) False

Answer: <https://biology-forums.com/index.php?topic=610430>

Question 9

Which of the following is not a function of estrogen?

- A) Appearance of pubic hair and breast development
- B) Development and maturation of the female reproductive organs
- C) Initiation of the first menstrual cycle
- D) All of the above are functions of estrogen.

Answer: <https://biology-forums.com/index.php?topic=610338>

Question 10

Which type of bone is cube-shaped in appearance?

- A) Regular
- B) Irregular
- C) Long
- D) Short

Answer: <https://biology-forums.com/index.php?topic=610045>

Question 11

A lesion can include all of the following except _____.

- A) Infected follicle
- B) Single patch of skin
- C) Injury
- D) Wound

Answer: <https://biology-forums.com/index.php?topic=610369>

Question 12

Spinal root directional terms are _____.

- A) Anterior and posterior
- B) Dorsal and ventral
- C) Superior and inferior
- D) Distal and proximal

Answer: <https://biology-forums.com/index.php?topic=610471>

Question 13

Which section of the heart receives blood from the right coronary artery?

- A) Right ventricle
- B) Left ventricle
- C) Right atrium
- D) Left atrium

Answer: <https://biology-forums.com/index.php?topic=609786>

Question 14

Supination turns the palm downward.

- T/F? A) True
B) False

Answer: <https://biology-forums.com/index.php?topic=610150>

Question 15

Blood is pumped to the body during this part of the cardiac cycle.

- A) Ventricular diastole
- B) Ventricular systole
- C) Atrial diastole
- D) Atrial systole

Answer: <https://biology-forums.com/index.php?topic=609778>

Question 16

An organism that produces disease is known as a(n) _____.

- A) Centriole
- B) Pathogen
- C) Organelle
- D) Magnetosome

Answer: <https://biology-forums.com/index.php?topic=609857>

Question 17

The cardiovascular system is one of the body's control systems.

T/F? A) True

B) False

Answer: <https://biology-forums.com/index.php?topic=610035>

Question 18

Often, geriatric patients are undermedicated for _____.

A) Osteoporosis

B) Diabetes

C) Hypertension

D) Pain

Answer: <https://biology-forums.com/index.php?topic=610556>

Question 19

The space within the mouth is known as the _____ cavity

A) Orbital

B) Cranial

C) Oral

D) Nasal

Answer: <https://biology-forums.com/index.php?topic=609622>

Question 20

Which molecule is least likely to be able to pass through a cell membrane without help?

A) $C_6H_{12}O_6$

B) C_7H_{16}

C) CH_4

D) H_2O

Answer: <https://biology-forums.com/index.php?topic=609847>
