

Question 1

In each of the following situations, a person is learning through either reinforcement or punishment. Classify each situation as involving one of these four consequences: positive reinforcement, negative reinforcement, presentation punishment, or removal punishment. Then explain why you chose the answer you did.

- a. Because Danielle fails her math class, she is taken off the school dance squad.
- b. Joe always does his homework assignments as soon as he gets them so he won't have to worry about them anymore.
- c. Lisa and Fran are giggling about something in the back of the classroom. Their teacher scowls at them. They are embarrassed and shut up.
- d. A teacher finds that by yelling at her students when they get too rowdy, they will settle down and be quiet for a while. (Focus on what is happening to the teacher.)
