Answer: <https://biology-forums.com/index.php?topic=656742>

### Question 11

Self-assessment to provide accurate and timely feedback during the negotiating team should occur during which step of the negotiation process?

- A) Preparation
- B) Face-to-face discussions
- C) Debriefing
- D) None of the above

Answer: <https://biology-forums.com/index.php?topic=656724>

### Question 12

On a control chart, how many successive data points on an increasing or decreasing line require an investigation for cause of progressive change?

- A) 7 or more
- B) 5 or more
- C) 4 or more
- D) 3 or more

Answer: <https://biology-forums.com/index.php?topic=657538>

### Question 13

Some service offerings have no interaction between the service provider and customers.

Answer: <https://biology-forums.com/index.php?topic=656114>

### Question 14

In fixed time period inventory models, inventory is reordered

- A) as required.
- B) when stock reaches a predetermined level.
- C) at regular time intervals.
- D) at midnight—when time is fixed.

Answer: <https://biology-forums.com/index.php?topic=657014>

### Question 15

The core activities any firm performs are called

- A) value chain management.
- B) supply chain management.
- C) operations management.
- D) process management.

Answer: <https://biology-forums.com/index.php?topic=655635>

### Question 16

The cost of inspection for three different product characteristics A, B, and C, is \$10, \$12 and \$8 respectively. The cost of failure if any one of them breaks down is \$100 (full replacement cost of the product). Where should the priority to inspect first be?

- A) A
- B) B
- C) C
- D) None of the above

Answer: <https://biology-forums.com/index.php?topic=657493>

### Question 17

The phase of the project in which the rate of spending typically increases is the

- A) initiation phase.
- B) planning phase.
- C) execution and controlling phase.
- D) closure phase.

Answer: <https://biology-forums.com/index.php?topic=657380>

### Question 18

The mechanism that U.S. corporation can use to allow foreign firms to sell in restricted markets while using the original design is

- A) franchising.
- B) joint venture.
- C) licensing.
- D) subsidiary.

Answer: <https://biology-forums.com/index.php?topic=655571>

### Question 19

The process which is the least labor intensive is

- A) Assembly line
- B) Job shop
- C) Batch
- D) Continuous

Answer: <https://biology-forums.com/index.php?topic=655878>

### Question 20
