

Question 1

It has been suggested that labour and management necessary for the upkeep of _____ led to the formation of a political elite.

- A)
an army
- B)
extensive trade networks
- C)
herds
- D)
temples
- E)
an irrigation system

Answer: <https://biology-forums.com/index.php?topic=820579>

Question 2

Research has shown that foraging groups that share common ancestry show considerable variation in economic structure and social organization. Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820539>

Question 3

Increasingly, paleopathologists have become aware that

- A)
human behaviour and culture play a significant role in the distribution of infectious diseases.
- B)
they should employ only microscopic examination techniques in their research.
- C)
they are primarily interested in genetically-caused diseases.
- D)
they should focus mainly on diseases that killed infants and children.
- E)
they must make conclusions about the general health of a population for their work to be credible.

Answer: <https://biology-forums.com/index.php?topic=820013>

Question 4

The Single-Origins Hypothesis implies little genetic diversity among modern Homo sapiens.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820431>

Question 5

Many anthropologists think that the increase in brain size in early Homo is linked to the emergence of stone tool making around 2.5 million years ago.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820327>

Question 6

Gene flow between populations tends to decrease genetic variation between populations.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820150>

Question 7

Up until recently, paleoanthropologists thought that anatomically modern humans evolved about

- A)
250,000 years ago.
- B)
200,000 years ago.
- C)
150,000 years ago.

- D)
100,000 years ago.
E)
50, 000 years ago.

Answer: <https://biology-forums.com/index.php?topic=820394>

Question 8

Charles Darwin was the first researcher to propose a theory of evolution outlining how different species developed one from another over time.
Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820092>

Question 9

In southern Iraq and the Mayan lowlands, _____ may have stimulated bureaucratic growth.

- A)
warfare
B)
trade routes
C)
temple complexes
D)
large scale farms
E)
climate change

Answer: <https://biology-forums.com/index.php?topic=820581>

Question 10

Upper Paleolithic art was confined to cave paintings.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820445>

Question 11

Where a newly discovered site is relatively disturbed, the excavation of test pits at intervals across the site might provide a better understanding of the sites extent.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=819999>

Question 12

Chromosomes are built of DNA.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820156>

Question 13

Most early cultivation in mainland southeast Asia seems to have occurred in the plains and low terraces around rivers.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820541>

Question 14

Skeletal evidence of health in the past is limited to the effects of infectious diseases.

Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820037>

Question 15

_____ are a group of primates that live mostly in trees, are noted for their colourful newborns, have been observed letting other members of the group handle newborns shortly after birth.

- A)
Baboons
B)

Chimpanzees
C)
Colobine Monkeys
D)
Macaques
E)
Siamangs

Answer: <https://biology-forums.com/index.php?topic=820195>

Question 16

The inner ear of Plesiadapis resembled that of modern primates.
Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820264>

Question 17

Lamarck argued that lower forms of life progress toward greater complexity and perfection.
Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820098>

Question 18

Civilization first developed in the Nile River Valley of Egypt and then spread worldwide via culture contact.
Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820587>

Question 19

The best known propliopithecoid from the fossil record is

- A)
Gigantipithecus.
- B)
Aegyptopithecus.
- C)
Tetonius.
- D)
Notharctus.
- E)
Kenyapithecus.

Answer: <https://biology-forums.com/index.php?topic=820257>

Question 20

Having three premolars in each quarter of the upper and lower jaws is a trait shared by the Oligocene propliopithecoids and living New World monkeys.
Is this statement T or F?

Answer: <https://biology-forums.com/index.php?topic=820274>
