Question 1

_____ on a problem definition are the things that must be accomplished.
Answer: https://biology-forums.com/index.php?topic=711944

Question 2

Radio frequency identification allows the automatic collection of data using _____ tags or _____ that contain a chip and an antenna.
Answer: https://biology-forums.com/index.php?topic=712947

Question 3

A logical data flow diagram shows how the business operates.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=712445

Question 4

Menus can be nested within one another to lead a user through options in a program.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=712774

Question 5

When analysts perform any activities in the systems development life cycle and are present in the business for an extended period of time, they are acting as _____.
Answer: https://biology-forums.com/index.php?topic=711784

Question 6

What are the seven situations that require feedback for users?
Answer: https://biology-forums.com/index.php?topic=712850

Question 7

The top-down approach provides the systems group with a ready made division of users into task forces for subsystems.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=712995

Question 8

An arrow is used to depict an external entity that can give and receive data from the system.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=712416

Question 9

Which kind of prototyping is most similar to what engineers call "bread boarding"?
A) nonworking scale model
B) first fullscale model
C) model bearing some essential features
D) patched-up prototype
Answer: https://biology-forums.com/index.php?topic=712202

Question 10

Which is not one of three main advantages of a decision tree over a decision table?
A) conditions and actions of decision trees are found on some branches
B) sequential structure of decision tree branches
C) more readily understood
D) more correct as a communication tool
Answer: https://biology-forums.com/index.php?topic=712109

Question 11

A _____ document is output for one stage of processing before serving as input for the next stage.
Answer: https://biology-forums.com/index.php?topic=712510

Question 12

A statechart diagram is created to show how several classes change each other's states.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=712335

Question 13

The agile approach is based on:
A) values.
B) practices.
C) principles.
D) All of the above.
Answer: https://biology-forums.com/index.php?topic=712223

Question 14

Which is not a good guideline to use when choosing questionnaire language?
A) Keep questions general rather than specific.
B) Keep questions short.
C) Use respondents' language whenever possible.
D) Avoid bias in wording.
E) Do not use low-level language choices.
Answer: https://biology-forums.com/index.php?topic=711996

Question 15

Credit card processing uses a check digit formula called the _____ formula.
A) Luhn
B) modulus 3
C) RFID
D) DTD
E) regular expression
Answer: https://biology-forums.com/index.php?topic=712898

Question 16

One advantage of JAD sessions is that it isolates the user from the analysis and design process.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=712014

Question 17

Processes that transform data should be named with a noun which indicates the data that has been transformed.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=712424

Question 18

Which sampling technique is usually the most important to the systems analyst?
A) stratified sampling
B) cluster sampling
C) random sampling
D) systematic sampling
Answer: https://biology-forums.com/index.php?topic=712060

Question 19

A feasibility study is used to gather broad data for the members of management that in turn enables them to make a decision on whether to proceed

with a systems study.
A) True
B) False
Answer: https://biology-forums.com/index.php?topic=711925

Question 20

List four criteria for evaluating system hardware.
Answer: https://biology-forums.com/index.php?topic=711967
