- true
- false

Answer: <https://biology-forums.com/index.php?topic=1901996>

Question 7

In this model of co-teaching, the two teachers split the class into two groups and teach the same content to a smaller group of student.

- One Teach, One Drift
- Parallel Teaching
- Accommodation Teaching
- Alternative Teaching

Answer: <https://biology-forums.com/index.php?topic=1901728>

Question 8

According to the federal government, what percentage of the school-age population is identified for special education services under the category of "emotional disturbance"?

- less than 1%

- about 2%
- 3-5%
- 6-10%

Answer: <https://biology-forums.com/index.php?topic=1901759>

Question 9

Children spontaneously compensate for poor vision by developing superior listening skills.

- true
- false

Answer: <https://biology-forums.com/index.php?topic=1902057>

Question 10

Boys with externalizing forms of E/BD outnumber girls with externalizing forms of E/BD by about five to one.

- true
- false

Answer: <https://biology-forums.com/index.php?topic=1901811>

Question 11

In general, outcomes for individuals with deaf-blindness depend on all of the following EXCEPT

- The quality and intensity the person receives are critical.
- The vast majority of students who are deaf-blind have other disabilities and medical conditions.
- The more mild the visual and auditory impairments, the greater the impact on a person's ability to adapt.
- The degree and type of visual impairment and auditory impairment can vary dramatically in individuals with deaf-blindness.

Answer: <https://biology-forums.com/index.php?topic=1902071>

Question 12

Accommodations for evaluation procedures of students with disabilities might include all of the following EXCEPT

- altering the time given for responding.
- changing the setting in which assessment is done.
- providing verbal prompts to the student during testing.
- using an alternative format for presentation of tasks or the type of response allowed.

Answer: <https://biology-forums.com/index.php?topic=1901398>

Question 13

All of the following are flaws associated with standardized testing EXCEPT

- They don't take cultural diversity into account.
- They tend to focus on deficits in the individual.
- They don't provide much information useful for teaching.
- They favor auditory over visual learners.

Answer: <https://biology-forums.com/index.php?topic=1901492>

Question 14

Approximately what percentage of the population of people with blindness currently uses braille as a primary reading method?

- 12%
- 34%
- 62%
- 84%

Answer: <https://biology-forums.com/index.php?topic=1902031>

Question 15

What was one of Elizabeth Farrell's contributions to special education?

- founded the Special Olympics
- organized a parent lobby for children with disabilities
- founded the Council for Exceptional Children
- developed a technique for teaching children who were both blind and deaf

Answer: <https://biology-forums.com/index.php?topic=1901301>

Question 16

Which poses the most difficulty for most children with learning disabilities?

- reading
- spelling
- handwriting
- math

Answer: <https://biology-forums.com/index.php?topic=1901647>

Question 17

A teaching model that includes content instruction by one teacher to a large group of students and remedial or supplementary instruction by the other teacher to a small group of students is

- Alternative Teaching.
- Parallel Teaching.
- Team Teaching.
- Station Teaching.

Answer: <https://biology-forums.com/index.php?topic=1901729>

Question 18

The middle ear consists of each of the following EXCEPT

- incus.
- malleus.
- auricle.
- stapes.

Answer: <https://biology-forums.com/index.php?topic=1901951>

Question 19
