Question 3

What is a correlated subquery? Include an example.
Answer: https://biology-forums.com/index.php?topic=1905323

Question 4

What line symbols are used in IDEF1X diagrams to represent relationships?
Answer: https://biology-forums.com/index.php?topic=1906174

Question 5

Hardware is installed and tested during the _____ step of the SDLC.
• requirements analysis
• component design
• implementation
• systems maintenance
Answer: https://biology-forums.com/index.php?topic=1906136

Question 6

A transaction is a group of alternative database actions, from which the database can choose to perform only one of them.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1905353

Question 7

In the SQL statement:
 SELECT S1.CustName, S1.SalesRepNo FROM SALES AS S1;
the "S1" is called an alias.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1905237

Question 8

The CONSTRAINT keyword can be used in conjunction with the SQL keywords PRIMARY KEY and FOREIGN KEY.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1905127

Question 9

The condition in WHERE clauses can refer to a set of values by using the IN operator.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1904528

Question 10

Which SQL keyword is used to change one or more rows in a table?
• MODIFY
• INSERT
• SELECT
• UPDATE
Answer: https://biology-forums.com/index.php?topic=1905185

Question 11

Question 1.JSON data files do not have to conform to any schema.
• true
• false
Question 2.A document database is mainly intended for processing multiple, large collections of documents.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1906391

Question 12

When MySQL Server Administration is opened in the MySQL Workbench, the Startup/Shutdown page is initially displayed.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1905764

Question 13

Question 1.What are Business Intelligence (BI) systems?
Question 2.What is a reporting system?
Answer: https://biology-forums.com/index.php?topic=1906379

Question 14

An identifier serves the same role for a table that a key does for an entity.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1904912

Question 15

An entity instance of an entity class is the representation of a particular entity, and is described by the values of the attributes of the entity.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1904905

Question 16

Using the VRG database as an example, briefly describe what a final database design consists of.
Answer: https://biology-forums.com/index.php?topic=1905106

Question 17

A dynamic cursor saves primary key values when the cursor is opened and retrieves the values for each row as the application program accesses it.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1905380

Question 18

Based on the tables below, which of the following SQL commands would return the average customer balance grouped by SalesRepNo?
GENERAL SALES DATABASE:
SALESREP
SalesRepNoRepNameHireDate654Jones01/02/2005734Smith02/03/2007345Chen01/25/2018434Johnson11/23/2004
CUSTOMER
CustNoCustNameBalanceSalesRepNo9870Winston5003458590Gonzales3504347840Harris8006544870Miles100345
• SELECT AVG (Balance)
FROM CUSTOMER
WHERE SalesRepNo;
• SELECT AVG (Balance)
FROM CUSTOMER
GROUP BY SalesRepNo;
• SELECT AVG (Balance)
FROM CUSTOMER, SALESREP
WHERE SALESREP.SalesRepNo = CUSTOMER.SalesRepNo;
• SELECT AVG (Balance)
FROM CUSTOMER
ORDER BY SalesRepNo;
Answer: https://biology-forums.com/index.php?topic=1904586

Question 19

In an SQL Server clustered index, the data are stored in the bottom level of the index and in the same order as the index.
• true
• false
Answer: https://biology-forums.com/index.php?topic=1905463
